## PROFILE

As a recent graduate with a Post Graduation Diploma in Advanced Computing from CDAC, I am seeking an entry-level position where I can leverage my skills in core java , JDBC , HTML , CSS , JavaScript, and MySQL to contribute effectively to a dynamic team and continue to grow as a professional.

## EDUCATION

- **Post Graduate Diploma in Advanced Computing** | CDAC Noida | 66.50% | Mar 2023 – Sep 2023
- Bachelor Degree in Mechanical Engineering | Pune University | 63.62% | 2017 – 2020
- Diploma in Mechanical Engineering | MSBTE | 75.53% | 2014 – 2017
- HSC | Maharashtra State Board | 54.15% | 2013 – 2014
- SSC | Maharashtra State Board | 82.15% | 2011 – 2012

## TECHNICAL SKILLS

- Frontend – JavaScript , React Js , Redux , HTML , CSS , React Native.
- Backend – Java , Spring Boot , Node.js Postman, Selenium
- Databases – MySQL, MongoDB
- Testing - Postman, Selenium
- Atlassian tools - Jira
- Others –GitHub, basic Linux commands

## EXPERIENCE

- **Completion of Student Internship Program (CIP)** | Oct 2023 – Nov 2023
- Successfully completed the web development Student Internship Program at CODSOFT earning recognition for dedication and contribution. Awarded the [CIP Certificate](#) by CODSOFT for outstanding.

## PROJECTS

[Link](#) | **Fundwise-Bank Management System** - Front End and Back End Development [ DCAC Group]

**Tech Stack** : React Js , Spring Boot , MySQL , Redux , CSS ,

Fundwise banking system which is a web application which comes under the "Financial " Domain.

- Frontend development using React Js for creating interactive, intuitive and responsive user interfaces.
- Backend implementation built using Spring Boot with uses MVC architecture for organized code structure, and it integrates database operations for effective data handling.
- Database management utilized MySQL as the database to store and manage transaction information and user data.
- User:- add beneficiary, transfer money, account details (transfer & transaction report), submit feedback.

- Admin:- add new user, add account, transaction, add KYC, Service Report(customer, account, feedback , KYC)

### [Link](#) | **File sharing application** - Back End Development

**Tech Stack :** Node Js ,Express Js, MongoDB , HTML , CSS ,

- In this project we will build apis for a file sharing app using Node Js, Express Js and Mongo DB.
- upload a file in Node Js for that we will use a package called Multer.
- use nodemailer to send emails using free SMTP from our node server.
- schedule a script on the server so we could delete 12 hours old files from the storage.

### [Link](#) | **Password Generator** - Front End and Back End Development

**Tech Stack :** React js , JavaScript , CSS ,

- to build a strong password generator using React JS.
- to create a user-friendly interface for generating random passwords, as well as how to use JavaScript functions to ensure the passwords are strong.

### [Link](#) | **Weather App** – Mobile application

**Tech Stack :** React Native , JavaScript , Tailwind CSS , Expo or Android Studio

- Seamless cross-platform experience with React Native
- Real-time weather data fetched using Axios
- Smooth navigation powered by React Navigation
- Enhanced with native performance using Reanimated and Safe Area Context
- Styled with Tailwind CSS for beautiful UI
- Developed with Expo for rapid prototyping and deployment " convert to above format"

## **CERTIFICATES**

- Postman API Fundamentals Student Expert | [Link](#)
- Git Training | [Link](#)
